FOREWORD

The Fourth Annual Directory of School Programs for Visually Handicapped Children is a continuation of our activities to collect and disseminate timely and useful information pertaining to the education of handicapped children. The rapid development of school programs for visually handicapped necessitates the production of this Directory to facilitate communication among programs. The Directory is a reference for responding to requests from professional and national organizations, students, and parents for information about available school programs for visually handicapped children.

Only schools and school systems employing one or more special teachers to work full time with blind and/or partially seeing children are listed. Indication of type of handicap served reflects the way in which children were reported classified for instructional purposes. For instance, if a program does not serve functionally blind children, but does serve those classified as blind for some purposes, but educated as partially seeing, it is listed as serving only partially seeing children.

Information concerning a program may be obtained by writing the superintendent of the administrative unit or special school listed in the Directory. Additional information may be obtained from State education agencies.

The Bureau of Education for the Handicapped acknowledges with thanks the cooperation of local and State agency personnel who supplied the data presented in this Directory.

James J. Gallagher
Associate Commissioner
Bureau of Education for the Handicapped
